CMA CONSTRUCTION INDIA PVT. LTD.

INDUSTRIAL CONSTRUCTION & INFRASTRUCTURE SOLUTIONS

PEB STRUCTURES • WAREHOUSING • STRUCTURAL STEEL • TURNKEY PROJECTS

ABOUT US

CMA CONSTRUCTION INDIA PVT. LTD. is an emerging construction and infrastructure company specialising in Pre-Engineered Buildings (PEB), structural steel fabrication, industrial piping, civil construction and turnkey project execution. The company aims to deliver dependable infrastructure solutions tailored to industrial and commercial requirements.

With a focus on quality, timely execution and practical engineering, CMA serves industries including manufacturing, warehousing, logistics, pharmaceuticals, chemicals and power. Its service capabilities cover warehouse development, steel structures, fabrication, erection and integrated construction works.

Backed by the founder's 18+ years of industry experience and established business relationships, CMA aims to build a strong presence in India's industrial infrastructure sector. The company plans to develop its capabilities, undertake larger projects and provide reliable end-to-end construction solutions to a growing customer base.

OUR MISSION & VISION

Mission: To deliver quality PEB, structural steel and industrial construction solutions through reliable engineering, timely execution and responsible practices, meeting the needs of industrial and commercial clients.

Vision: To become a trusted name in India's industrial infrastructure sector, recognised for engineering excellence, dependable delivery and expertise in warehousing, structural steel and turnkey construction projects.

PROBLEM STATEMENT & MARKET GAP

Rising Construction Demand

Expanding manufacturing, warehousing and logistics sectors are creating opportunities for capable construction companies.

Project Execution Challenges

Delays, coordination gaps and inconsistent quality affect construction timelines, costs and delivery.

Demand for Quality Construction

Businesses need dependable contractors for PEB structures, steel fabrication and industrial construction.

Growing Warehouse Requirements

Rising industrial and logistics activity increases demand for reliable warehouse infrastructure.

Infrastructure Development Gap

The market needs efficient, cost-effective, durable and sustainable industrial infrastructure solutions.

OUR SOLUTIONS

1

PEB & WAREHOUSE CONSTRUCTION

Building durable pre-engineered structures and industrial warehouses.

2

STRUCTURAL STEEL & FABRICATION

Providing steel fabrication, erection and customised structural solutions.

3

INDUSTRIAL & CIVIL CONSTRUCTION

Executing civil works, industrial piping & integrated construction projects.

4

END-TO-END PROJECT EXECUTION

Delivering turnkey solutions from planning and material supply to installation and handover.

STRONG INDUSTRY EXPERIENCE

Backed by 18+ years of industry experience in construction and infrastructure.

INTEGRATED SERVICE PORTFOLIO

PEB, structural steel, fabrication, civil works and turnkey project solutions.

QUALITY-FOCUSED EXECUTION

Emphasis on quality materials, engineering standards and efficient site management.

END-TO-END PROJECT DELIVERY

Integrated project execution from planning and fabrication to erection and handover.

UNIQUE SELLING PROPOSITION

MARKET SIZE & OPPORTUNITY

- **TAM (Total Addressable Market):** India's industrial construction and infrastructure market offers an estimated opportunity of **₹1,00,000 crore**, driven by industrial and warehouse development.
- **SAM (Serviceable Available Market):** CMA targets an estimated **₹5,000 crore** addressable segment across PEB, warehousing and structural steel construction.
- **SOM (Serviceable Obtainable Market):** CMA aims to capture **5%** of the SAM, representing an estimated opportunity of **₹250 crore.**

OUR PRODUCTS & SERVICES

INDUSTRIAL WAREHOUSING

Development of modern warehouse facilities and customised industrial storage infrastructure.

STEEL FABRICATION & ERECTION

Fabrication and fitting of steel structures for large-scale industrial projects.

PIPING & ALLIED WORKS

Industrial piping, civil works and supporting infrastructure for diverse industry requirements.

PROJECT ENGINEERING & CONTRACTING

Planning, engineering, material procurement & execution of industrial construction contracts.

BUSINESS MODEL

CMA CONSTRUCTION INDIA PVT. LTD. operates in the industrial construction and infrastructure sector, focusing on PEB structures, warehouse development, structural steel fabrication, civil works and turnkey project execution. Revenue will be generated through construction contracts, fabrication services, material supply and warehouse-related operations.

PROJECT CONTRACTING

1

Undertaking various industrial, commercial & warehouse construction projects for business clients.

PEB & STEEL STRUCTURES

2

Designing, fabricating and erecting pre-engineered buildings and structural steel systems.

INDUSTRIAL INFRASTRUCTURE

3

Executing civil works, industrial piping and integrated infrastructure development requirements.

WAREHOUSING & OPERATIONS

4

Developing warehouse facilities and supporting storage, material handling and warehouse-to-market activities.

GO- TO- MARKET STRATEGY

CMA Construction India Pvt. Ltd. aims to strengthen its industrial construction presence through client acquisition, industry relationships and reliable execution, focusing on PEB, warehousing, structural steel and turnkey projects.

Backed by the founder's 18+ years of experience, CMA plans to secure new contracts, build client confidence and expand across India's industrial markets.

Client Network Development
Leveraging industry relationships to connect with manufacturers, developers and industrial clients.

Direct Project Opportunities
Targeting warehouse, PEB, structural steel and large-scale industrial construction contracts.

Regional Market Expansion
Building a wider client base across manufacturing, logistics and industrial sectors nationwide

CLIENT RETENTION STRATEGY

Dependable Project Completion

Ensuring timely project execution and reliable services to build client confidence and encourage repeat business.

Engineering & Quality Standards

Maintaining consistent quality through skilled teams, proper supervision and adherence to project specifications.

Strong Client Associations

Building lasting relationships through clear communication, dependable support and performance.

COMPETITOR ANALYSIS

COMPETITOR	STRENGTH	WEAKNESS	OUR EDGE	INDUSTRY INSIGHT
Interarch Building Solutions	Strong PEB and turnkey building expertise	Primarily focused on pre-engineered buildings	Broader civil, piping and fabrication capabilities	Demand for industrial buildings is growing.
Kirby Building Systems	Established PEB engineering network	Large-scale established operating structure	Flexible project approach and customised execution	Warehousing and industrial construction offer growth.
Pennar Industries	Strong steel engineering and PEB capabilities	Diverse business portfolio across multiple segments	Integrated construction and site execution	Demand for structural steel and industrial facilities grows.

PROGRESS SO FAR

COMPANY INCORPORATION

CMA Construction India Pvt. Ltd. was incorporated on 28 April 2026.

LAND ACQUISITION

Purchased 4,000 sq. ft. of land with an investment of ₹1 crore.

INDUSTRY EXPERIENCE

Supported by the founder’s 18+ years of construction industry experience.

BUSINESS SETUP

Defining project capabilities, operational requirements and execution plans.

GROWTH ROADMAP

Planning to expand into PEB, warehousing and industrial construction projects.

ESTIMATED TIMELINE FOR THE PROJECT

The initial phase focuses on project planning, warehouse development preparation and resource mobilisation to establish a strong foundation for CMA’s industrial construction operations.

Project Planning

Finalising project plans, material sourcing, machinery requirements and work management systems for efficient execution.

Operational Setup

Setting up essential equipment, site facilities and material coordination systems to support quality and smooth operations.

ESTIMATED TIMELINE FOR THE PROJECT

The next phase focuses on expanding project execution capabilities, undertaking larger industrial works and building CMA’s presence across key markets.

Project Execution & Growth

Executing warehouse, PEB and industrial construction projects while strengthening project capacity and delivery standards.

Market Expansion

Expanding business reach across manufacturing, warehousing, logistics and other key industrial sectors in India.
